

Enhancing **Environmental Sustainability** & Natural Risk Management in Oil & Gas

(Geo-Environmental Risks & Geotechnical Challenges)

Duration: 5 Days

Target Audience:

- Oil & Gas Engineers
- HSE Engineers & Officers
- Project & Construction Engineers
- Site Supervisors & Operations Personnel

Program Highlights

Day 1 Environmental Sustainability

- ESG & Compliance
- Global Case Studies

Day 2 Natural Hazards

- Seismic, Floods & Sandstorms
- Risk Mitigation

Day 3 Geo-Environmental Risks

- Soil Contamination
- Spill Management

Day 4 Geotechnical Challenges

- Foundation & Stability Solutions

Day 5 Risk & HSE Systems

- Emergency Response
- Practical Workshop

External Course

Date: 22 – 26 March 2026

Time: 8AM – 2 PM

Location: London,
Malaysia, Egypt

Outcomes

- ◆ In-depth understanding of sustainability in Oil & Gas
- ◆ Ability to identify & manage natural and geo-environmental risks
- ◆ Enhanced HSE & Compliance performance
- ◆ Practical application of industry best practices
