

Intensive Accounting Program

Course Title	Intensive Accounting Program
Country	Turkey
Location	4-5 Star Hotel
Time	8AM - 2PM
Date	19 - 23 January 2026

Course Objective

Develop advanced financial accounting and analysis skills for professionals, accountants, and financial managers. Participants will gain practical expertise in applying best accounting practices to improve financial performance and support strategic decision-making in private companies.

5-Day Detailed Program Outline

Day 1: Advanced Accounting Principles & Fundamentals

Content:

- Review of modern accounting principles
- Understanding financial statement structures (Balance Sheet – Income Statement – Cash Flow)
- International Financial Reporting Standards (IFRS) applications
- Recording complex financial transactions

Outcome: Build a strong foundation for advanced financial analysis.

Day 2: Financial Statement Analysis & Performance Evaluation

Content:

- Liquidity, profitability, and efficiency ratios analysis
- Using financial data for decision-making
- Financial forecasting using ratios and variables
- Case studies and practical exercises

Outcome: Develop the ability to analyze financial performance and interpret key indicators.

Day 3: Financial Planning, Budgeting & Cost Management

Content:

- Preparing financial plans and operational budgets
- Variance analysis and interpretive reporting
- Industrial and operational cost accounting
- Standard costing and performance control

Outcome: Improve financial forecasting and balance expenditures with revenues.

Day 4: Internal Controls & Financial Risk Management

Content:

- Designing effective internal financial control systems
- Techniques for detecting errors and preventing financial fraud
- Financial risk management and mitigation
- Technology-driven control tools (Excel / ERP systems)

Outcome: Gain comprehensive knowledge of essential safeguards for company assets.

Day 5: Advanced Financial Reporting & Strategic Planning

Content:

- Preparing monthly and quarterly financial reports
- Linking financial performance to strategic goals
- Interpretive reporting for stakeholders and senior management
- Capstone exercise + applied case studies + mini-project

Outcome: Create professional reports that support strategic decision-making.
